

# The Green Barrier™

*Patented Design & Construction*

- Project Profile:** Coventry Arena
- Client:** Coventry City Council
- Detail:** 128mtrs length x 2.5mtrs high Non acoustic Green Barrier in living Willow, c/w irrigation system.
- Objective:** Landscaping of area near the new Coventry Arena.
- Construction date:** May 2005

The site before installation of the Green Barrier.

The barrier is being installed c/w an irrigation system.

The barrier blends in well with the surroundings and new growth will soon appear, turning into lush willow hedging.

Within 6 weeks of planting the Willow is already producing strong growth and screening the site well.

With acknowledgement to Coventry City Council.
